

DIVERSITY DISCOVERY

Embrace curiosity and give your people the confidence to talk openly about diversity.

Our **Diversity Discovery** is an interactive development workshop that aims to build confidence in using diversity language and inspire curiosity around being a more inclusive individual.

This important journey starts with exploring the building blocks of equality, diversion and inclusion before moving on to clarify some of the complex and often misleading language used within diversity conversations.

An important part of this session is identifying what makes us who we are, before completing with some actions on what we can all do to become more inclusive.

LEARNING OUTCOMES:

- Increased awareness and understanding of diversity and inclusion, both legally and in terms of the lived experience at work.
- An awareness of own diversity profile.
- An understanding of the benefits of a diverse culture, and the role we all play in achieving inclusion.
- An understanding of the confusing language that surrounds diversity
- Identify best practice in creating inclusive workplaces.
